# Gladiolus

1952

GELSER BROTHERS
DALTON, N. Y.

Heart's Desire

## **GREETINGS**

We take great pleasure in presenting our catalog for 1952. Our listing contains the best of the new and older varieties as well as the best of the foreign varieties.

We had a very good growing season despite an unusually dry year. We do not have as many large or No. 1 bulbs as usual because of the dry weather, but they are exceptionally free of disease and, as for thrips, we had none.

All our bulbs have careful handling in the field and in storage to prevent bruising. All bulbs are inspected when cleaned, also a second inspection at planting time, which we believe is the best way to eliminate disease.

We personally inspect every order before it is packed for shipment. Our policy is not to grow more Gladiolus than we can give our personal attention.

We wish to thank you for the many fine orders we received last season.

With best wishes for a very good Glad year.

Sincerely yours, Gelser Bros.

#### **EXTRAS**

We always give extras in count and in new varieties if our stock permits. We have reduced our prices on most items, which we believe is much better than allowing discounts.

#### PRICES and TERMS

Gladiolus prices are good for this spring only and good only as long as our present stocks last.

TERMS: Full remittance should accompany all orders. However, we will ship C. O. D. on request, when 25 per cent of the amount of the order is paid in advance.

#### SIZE OF GLADIOLUS BULBS

Large bulbs are 1<sup>1</sup>/<sub>4</sub> to 2 inches or more in diameter (No. 1 & No. 2) the best blooming size.

Medium bulbs are 3/4 to 1 1/4 inches in diameter (No. 3 & No. 4). This size will give good bloom, but a little later than the large size.

Small bulbs are 38 to 34 inches in diameter.

When there is a figure before the price of a variety, as 2-15c or 3-15c, it means 2 bulbs for 15c, or 3 bulbs for 15c, etc.

Cultural directions will be sent with all orders.

#### DELIVERY CHARGES

We pay the delivery charges on bulbs selected from our retail list. Bulbs priced by the 100 are not prepaid.

#### **BULBLETS**

We are offering bulblets of nearly all varieties. It is a cheap way to get started in the high-priced varieties, if you will give them the extra care needed. They should be cracked or, better still, peel a strip of the hard shell from the side of the bulblet, but be careful not to injure the bulblet in peeling. Bulblets also require plenty of moisture to germinate. We do not guarantee bulblets to grow, so do not expect us to replace any which fail to germinate. We will send you the largest bulblets available, but some varieties never make large bulblets, so if you get bulblets which are small, it will be for the reason that that variety produces small bulblets. We always give extra count when stocks are available.

We cannot fill orders for bulblets after April 1st.

### ORDER EARLY

Please place your order early in order to avoid disappointment, as a great many varieties will be sold out early. It is important that orders for small sizes and bulblets be received early, as we begin planting our own stock in April and may not have the stock to fill late orders.

The cost of producing stock has increased, but we have not increased our prices. In many cases we have reduced them in order to sell out early, as we must curtail our planting this year, so it will be wise to take advantage of our prices now.

## SECOND CHOICE, PLEASE!

Due to the heavy demand for bulbs this year, it is to your advantage and also to ours, if you would give a second choice, either in size or another variety.

### PLEASE READ CAREFULLY

Retail orders are prepaid; wholesale orders are not prepaid.

If you wish to order part from retail and part from wholesale list, we will send the order delivery charges collect and we will include overcount and extras to more than make up the charges on the retail items.

We ship either by parcel post or express, whichever we think is safest and best at time of shipment.

On fair sized orders we advise shipment by express in cold weather as express orders are insured against freezing.
